Subject: Green Eagle Railroad: Availability of the Draft Environmental Impact Statement
Attachments: Green Eagle DEIS_Flyer_English.pdf; Green Eagle DEIS_Flyer_Español.pdf

Dear Interested Party,

The Surface Transportation Board's (Board) Office of Environmental Analysis (OEA) is pleased to announce that the Draft Environmental Impact Statement (Draft EIS) for Green Eagle Railroad's proposed construction and operation of a 1.3-mile rail line in Eagle Pass and Maverick County, Texas, is available for review and comment. The proposed line is part of the larger Puerto Verde Global Trade Bridge project that also includes a new commercial motor vehicle (CMV) crossing between Piedras Negras, Coahuila, Mexico, and Eagle Pass, Texas. The Draft EIS analyzes the potential environmental impacts of both the proposed rail line, which requires a license from the Board, and the CMV crossing because they would be built as a single port of entry for freight rail and CMV traffic between Mexico and the United States.

The Draft EIS is available for [viewing or downloading](#) on the Board-sponsored project website at www.greeneaglerreis.com and on the Board's website at www.stb.gov under Docket No. FD 36652.

Information on how to submit comments on the Draft EIS and the three public meetings that OEA will be holding is provided on the Board-sponsored project website and in the attached flyer. All comments must be submitted on or before May 5, 2025.

Sincerely,

Danielle Gosselin

Director
Office of Environmental Analysis
Surface Transportation Board
